

**FEB**

- + New Technologies for Grid Modernization
- + Distributed Energy Solutions
- + Switchgear Technologies
- + Microgrids
- + Asset Management
- + Batteries and Energy Storage
- + Digital Twins
- + Transformers - The Heart of the Power System
- + Distributech Pre-Show section

Application Deadline: 19-Dec Publication Date: 19-Feb

**MAY**

- + Sustainable Power System Planning and Analysis
- + Substation Maintenance
- + Green Energy: Innovations in Sustainability and Reliability
- + Cables: Undergrounding and Monitoring
- + Protection Systems
- + Impact of DER on Modern Grids
- + Aging Transformer Infrastructure
- + Electrical Steel Innovations
- + IEEE PES Grid Edge Featured Section

Application Deadline: 21-Mar Publication Date: 21-May

**AUG /  
SEP**

- + Substation Solutions: Design, Automation & Monitoring
- + Testing & Inspection Solutions for Electrical Equipment
- + Switchgear Technologies
- + Protection Systems
- + Asset Management Solutions
- + Role of IR and UE Inspection Solutions
- + Dry-type Technology Developments
- + Best Practices in Transformer Maintenance

Application Deadline: 04-Jul Publication Date: 04-Sep

**NOV**

- + Resilience of the Power System
- + Grid Security Solutions
- + Cables: Innovations, Applications and Testing
- + Switchgear Advanced Technologies
- + Distributed Energy Resources Management Systems (DERMS)
- + Batteries and Energy Storage
- + Modernization Strategies for Utility Infrastructure
- + Distribution Management
- + Transformers - The Heart of the Power System
- + The Art of Partial Discharge testing

Application Deadline: 12-Sep Publication Date: 12-Nov

**MAR**

- + Monitoring, Diagnostics, Maintenance and Reliability
- + DGA Monitoring Solutions
- + IR, Ultrasound and Partial Discharge
- + Reducing Downtime
- + AI, Machine Learning and Data Management
- + Power System Testing
- + Sustainability and Resilience

Application Deadline: 19-Jan Publication Date: 19-Mar

**JUN**

- + Innovations in Design, Manufacturing and Supply Chain Dynamics
- + Design for Reliability and Sustainability
- + Predictive Maintenance
- + Advanced Component Designs and Technology
- + Dry-type Transformer Technology
- + Electrical Steel Innovations
- + Advanced Transformer Testing
- + On-Load Tap Changers (OLTC)
- + Grid Security: Physical and Cyber

Application Deadline: 18-Apr Publication Date: 18-Jun

**OCT**

- + Advanced Insulation Solutions
- + Mineral Oil Advances
- + Natural and Synthetic Esters
- + Silicone Fluids
- + Oil purification and Filtration Systems
- + Cooling Solutions
- + Transformer Oil Analysis and Testing
- + DGA Monitoring Solutions
- + Sustainability and Reliability
- + IEEE-EIC (Electric Insulation Committee) Featured Section

Application Deadline: 15-Aug Publication Date: 15-Oct

**DEC**

- + Transformer Critical Components
- + Advanced Bushing Technology
- + On-load tap changers (OLTC) Principles and Testing
- + Bushing Testing and Diagnostics
- + Transformer Winding & Cable Components
- + Transformer Core technologies
- + Transformer Protection Products and Systems
- + Predictive Maintenance
- + TechCon Preconference Update

Application Deadline: 04-Oct Publication Date: 04-Dec

**H1**

**Mentorship Matters: Nurturing the Next Generation of Women Innovators**

Discover the vital role of mentorship in shaping future women leaders in power systems. We'll share inspiring success stories and innovative strategies for effective mentorship programs, encouraging professionals to support emerging talent.

Application Deadline: TBD Publication Date: TBD

**H2**

**Breaking Barriers and Leading the Charge for a Sustainable Future**

Dive into the compelling stories of women reshaping leadership in power systems. This edition spotlights their innovative strategies, the hurdles they've overcome, and their dedication to sustainability. Celebrate these pioneers and their influence on the industry's future!

Application Deadline: TBD Publication Date: TBD

**2025 Editorial Calendar**
